### In/Out-of-the-Money Diagonal Spreads/Double Diagonals

Enroll in our Three-Session (3 hours) course that covers Diagonal and Double Diagonal Spreads. During your one-on-one discussions with your mentor who is a professional educator and trader, you will learn:

- How to use options to replace stocks for covered calls
- Trade long-term options and use short-term options as a hedge
- Reduce the cost of long-term options
- The value of using technical oscillators as a means of transitioning in and out of short hedging contracts
- How to use option Greeks to help transition in and out of diagonal spread trades
- Transitioning from out-of-the-money diagonals into vertical spreads
- Basic terms and definitions associated with in and out of the money diagonal spreads
- Transitioning from out-of-the-money diagonals into Iron Condors
- Calculating return on risk for diagonal spreads
- Calculating return on risk for ending vertical or Iron Condor spread

[In/Out-of-the-Money Diagonal Spreads/Double Diagonals 3-hour course: \$87.00]
